

BRAIN AWARENESS WEEK

- presents -

Ask the Experts!

An informal discussion of stroke rehabilitation, ageing,
and brain plasticity.

Thursday March 13th, 6pm

Just Us! Cafe, 5896 Spring Garden Road

Join us to learn more about the exciting research taking place in Halifax,
and to have our local experts answer your questions!

Our panel will feature the following experts:

Dr. Shaun Boe

Dalhousie University, School of Physiotherapy

Dr. Boe examines brain recovery, function, and rehabilitation after stroke.

Dr. Gail Eskes

Dalhousie University, Department of Psychiatry

Dr. Eskes researches ways to improve attention and memory in people living with the effects of stroke and Parkinson's.

Dr. Marilyn MacKay-Lyons

Dalhousie University, School of Physiotherapy

Dr. MacKay-Lyons investigates the role of exercise and rehabilitation to improve the mobility and function of people with neurological disorders.

Dr. Gordon Gubitza

Capital Health, Acute Stroke Unit

Dr. Gubitza is an attending physician on the acute stroke unit and is involved in stroke related education and research.

Coffee and refreshments provided!
